Agenda

Celebrate Innovation Generation!

I cordially invite you to join us in Tampa as we celebrate the innovation generation. Project CHILD is helping create 21st century thinkers, and the attendees at this conference are on the leading edge of school innovation.

There will be lots to do. On Friday morning you can take a school bus tour to see CHILD in action. On Friday afternoon subject area teachers will gather for an extended make and take session, while principals and administrators can attend a roundtable session to share ideas and solve problems. On Friday evening ISI will host the annual Leadership Dinner to honor school and district leaders who carry the torch for school innovation.

Saturday's conference starts early with an inspiring keynote address, followed by a full day of breakout sessions for learning and sharing. The Gala Awards Luncheon will recognize and honor CHILD educators who are making a difference. And of course the Marketplace and door prizes are fun for all.

I look forward to seeing old friends and meeting new ones. Together we will move into the future with joy and hope.

—Sally Butzin, Executive Director

Keynote Speaker

Tim DiScipio is chairman and co-founder of ePALS Classroom Exchange, the leading provider of school-safe email, blogs, and eMentoring technology for the global K-12 market. ePALS also maintains the largest online classroom community, connecting 13 million students and teachers in 200 countries for online cross-cultural penpal exchanges, language learning, and classroom-to-classroom project sharing.

A true pioneer and industry leader in Internet media, social networking and K-12 education technology, Tim has visited hundreds of schools worldwide, is a frequent keynote speaker at international conferences and has given invited presentations and speeches to the Ministries of Education in China, Singapore and Kenya on education technology. Additionally, he has interviewed with major publications such as the *The New York Times*, *The Wall Street Journal* and leading education trade magazines.

Tim recently briefed U.S. House and Senate members on the impact and challenges of broadband technology to 21st Century education, and contributed to a key 2009 FCC report on "Barriers To Broadband Adoption." He serves on several industry and education advisory boards including the National Middle Schools Association 21st Century Classroom Project.
